## Product Description

### Color Temperature 3000k-6500k PIR Sensor Lights 2 Year Beam Angle 120°

PIR Sensor Lights are motion-detection lights that use a passive infrared sensor to detect movement in the area and switch on the lights. They have a waterproof rating of IP54 and a beam angle of 120°, making them ideal for outdoor use. The lights are made of durable materials such as Casting Aluminum and PC Housing and are available in wattages of 5W, 7W and 9W. They offer a wide range of color temperatures, ranging from 3000K to 6500K.

PIR Sensor Lights offer a reliable and energy-efficient way to light up the outdoors, making them an ideal choice for homeowners. They are easy to install and require minimal maintenance, making them a great option for outdoor lighting. With their motion-detection capabilities, these lights can help save energy and provide extra security for homes and businesses.
