

IP54 PIR Sensor Light Bulb Waterproof Motion Activated Light Bulb Outdoor

Our Product Introduction

for more products please visit us on led-lightbulb.com

Basic Information

- Place of Origin: Shenzhen. China
- Brand Name: NCJ TECH
- Model Number: NSL-AL01
- Minimum Order Quantity: 100 pcs
- Price: Negotiation
- Packaging Details: White box + Outer box (K=A)
- Delivery Time: 1: Sample and small order: Within 7 working days after receiving your payment. 2: Bulk order: 3-4 weeks after receiving your deposit.
- Payment Terms: T/T, Paypal
- Supply Ability: 10000pcs per month

Product Specification

- Luminous Lux: 1000ml
- Material: Aluminum+PC Housing
- Beam Angle: 120°
- Color Temperature: 3000k-6500k
- Wattage: 5W/7W/9W
- Voltage: AC85-265V
- Highlight: **IP54 PIR Sensor Light Bulb, PIR Sensor Light Bulb Waterproof, Motion Activated Light Bulb Outdoor**

Product Description

AC85-265V Motion-Activated Lights Intelligent Motion Detection

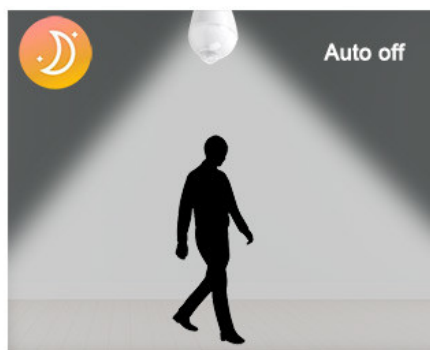

PIR Sensor Lights are motion-activated lights that use a Passive Infrared Sensor (PIR) to detect movement in the area and turn on the light. This energy-efficient lighting solution is perfect for corridors, stairwells, driveways, pathways, and other areas of your home or office. The lights come in a variety of wattage levels, ranging from 5W to 9W, and feature a strong waterproof rating of IP54, making them perfect for outdoor use. The lights also come in a variety of color temperatures, ranging from 3000K to 6500K, and with a 120° beam angle, they create a wide spread of light. The lights also feature a durable cast aluminum and PC housing, making them perfect for long-term use. These motion-activated lights are perfect for any home or office, providing a secure and energy-efficient lighting solution.

Technical Parameters:

Property	Specification
Technology	Motion-Detection Lights, Passive Infrared Sensor Lights, Motion-Detection Lights, PIR Sensor Lights
Voltage	AC85-265V
Working Temperature	20 — 40
Color Temperature	3000k-6500k
Storage Temperature	20 — 80
Luminous Lux	1000ml
Material	Aluminum+PC Housing
Wattage	5W/7W/9W
Beam Angle	120°

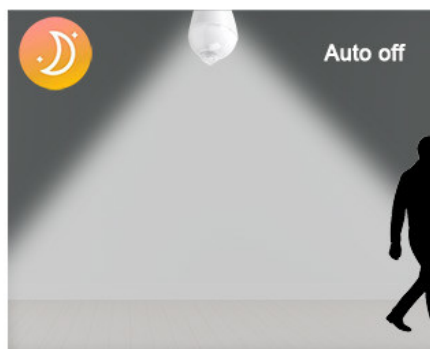

1. During the day, people and cars pass by, and the lights will not light up.

2. At night people enter the detection area and the lights automatically light up.

3. The person moves in the detection area until the person waves, the light continues to light up

4. After the person leaves the sensing range for 50-60 seconds, it automatically turns off

Support and Services:

We offer technical support and services for our PIR Sensor Lights. Our technical support team is available to answer any questions you may have and provide assistance with installation, troubleshooting, and maintenance. We also provide a wide range of after-sales services, including warranty and repair services, product replacement, and customer support.

Packing and Shipping:

Packaging and Shipping

PIR Sensor Lights are packaged with a cardboard box and bubble wrap to ensure that the product is well protected during shipment. Shipping is done via courier or postal service to ensure that the product is delivered to the customer in a timely manner.
